

3 days of sustainable development, an environmental and international meeting around the

How to achieve sustainable
development and economic growth ?

Visits:

- Research and development departments of environmental companies.
- Water and wastes management companies.
- Technological vegetal poles. Green houses.

... Roundtables in small
multinational groups for
real exchanges of opinion
about European sustainable
development practices ...

... And a bit of tourism and culture
for glimpse of UNESCO
heritage sites.

- "Châteaux de la Loire"
- Vineyards
- Cave dwelling

The regatta! The third day, raft-race

Overlooked by the watchful eyes of the inhabit-
ants of Angers, prizes will reward the fastest,
most clever or most beautiful rafts...

Raft-building material recyclable

Construction by multinational teams during
the first two days

While on land ...

Stands describing environmental problems
with professionals, associations and
students...
And a great concert to close the day
